Description:

A comprehensive bugfixing mod for The Elder Scrolls V: Skyrim - Special Edition. The goal of the Unofficial Skyrim Special Edition Patch (aka USSEP) is to eventually fix every bug with Skyrim Special Edition not officially resolved by the developers to the limits of the Creation Kit and community-developed tools, in one easy-to-install package.

Features:

- Hundreds of gameplay, quest, NPC, object, item, text and placement bugs fixed.
- Created by the authors of the Unofficial Oblivion Patch series.
- No unsafe changes (such as deletions of stock objects).
- Designed to be compatible with as many other mods as possible.

For more information (ie the recent changelog, mods that USSEP replaces) see USSEP's threads on the AFK Mods forum here: <http://afkmods.iguanadons.net/index.php?/forum/351-unofficial-skyrim-special-edition-patches/>

The complete changelog is posted here:

I have a very fast PC (intel i7 6 core 3 4ghz / all disks are SSD 500MB/s 16GB ddr4 ram).

But still, compared to Fallout 3, loading times are very long, when I open door, or use fast travel, I need to wait about 10 seconds, reading the message with some hints, that I wouldn't normally even notice in Fallout 3.
